

Everything

Thoughts run rampant
In my mind
I knew we were running out of time
I knew that we would find
It so hard to stay together
We both knew nothing
Lasts forever
Not the joy nor the pain
Not the sunshine nor the rain
We danced under the stars
Now we watch another from afar
I'll forever hold you
In my heart

Baby...I just need you know
I gave you all that I could...gave you all that I could
Baby...I just need you to know
I gave you all that I could...gave you all that I could
I didn't give you everything you needed
But I gave you everything I could.
Baby...I just need you to know
I gave you all that I could...gave you all that I could

Can't stop thinking of
The night we met
When you took a step
Took a hold of my hand
As we danced the night away
The stars and the night
Had something to say
They whispered
This is magic
What we feel inside
You made me feel so alive
Your loving got me high
Morning came too fast
All I wanted was the darkness to last
So I could stay in your arms

Baby...I just need you know
I gave you all that I could...gave you all that I could
Baby...I just need you to know
I gave you all that I could...gave you all that I could
I didn't give you everything you needed
But I gave you everything I could.
Baby...I just need you to know
I gave you all that I could...gave you all that I could...
